Bespoke landscape design & construction.

Tailored to suit your individual needs & budget.

Crown Paving Ltd provides a fully managed range of high quality services to domestic and commercial customers. Our passion, experience and attention to detail enables us to create perfect outside spaces for our clients.

Our services include paving and block paving for driveways and patios, as well as fencing, and other landscaping services.

Block Paving

Block paving is by some distance the most popular paving material for domestic and commercial driveways, patios and pathways throughout the UK and beyond. Available in a variety of different designs and colours, we can help to create an individually tailored design which perfectly complements your home or surrounding area.

- ▶ Ideal for both driveways and patios, this contains organic minerals which specifically designed to inhibit weed growth.
- ▶ An easy to use kiln dried sand, but with a weed-free lasting professional finish.
- ▶ 'No Weed' is easy to use and optimised for narrow joints and patios, driveways and walking areas.
- ▶ The weed inhibiting joint sand is used for grooves in new & existing concrete pavements/patios and driveways.
- ▶ A unique composition creates desert like and weed inhibiting conditions in grooves making it difficult for weeds to take hold due to natural high PH value.
- ▶ The joint material has a long life span and can endure, many years of permeating rain without losing its weed inhibiting effect.
- ▶ The joint material consists of a mixture of oven-dried, nutrient-poor minerals which give the product its stylish light colour.

NEW IN
Weed Free
Block Paving

Slabbing

We specialise in laying Indian Sandstone. Available in a wide range of colours, patterns and sizes including Hot Tarmacadam (red & black). Contact us today for more information on slabbing services.

All Types of Garden Walling

A key part of our landscaping service relates to our ability to construct high quality garden walling for our clients. Crown Paving Ltd is able to deliver good value for money, working within your budget in a versatile way.

Resin Bonded & Resin Gravel

Resin bonded and resin gravel surfaces offer the ideal finish for anyone looking for a durable surface requiring little maintenance. Available in a variety of colours, they are suitable for both domestic and commercial projects and perfect for any property and taste.

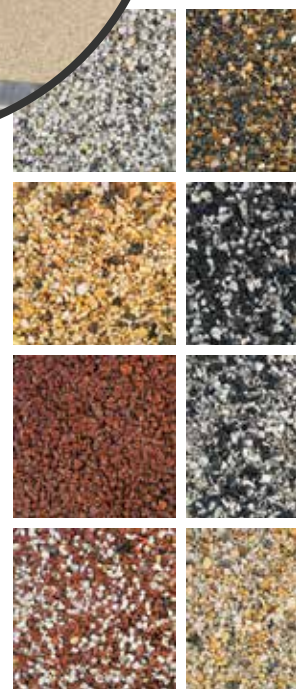

Another Happy Customer
